

PERMIAN BASIN INTERNSHIP PROGRAM

BUILD A PAID PATHWAY TO A LONG-TERM CAREER AS A CAT® TECHNICIAN.

Launch a career you can be proud of at Warren CAT. As a CAT technician, you'll combine practical, hands-on work with advanced technology—working on heavy machines, industrial engines, electric power generation systems, and rental equipment. Our technicians keep the equipment that builds communities, powers job sites, and supports critical operations running across West Texas.

This paid internship provides real-world experience, mentorship, and a clear pathway to a well-paying, full-time career with Warren CAT.

WHO CAN APPLY?

Diesel students currently enrolled at one of our partner technical schools who are interested in a paid, career-focused internship.

CAREER PATHWAY

Successful interns are prepared for full-time technician roles with Warren CAT upon program completion.

BENEFITS

Interns will receive a toolbox & tools valued at \$8,000 to use, which will be theirs to keep after the 24-month scholarship reimbursement period ends.

Up to \$9,600 tuition reimbursement

**Based on individual students' costs.*
