Warren U Technical Institute, located in Brownfield, Texas, is Warren CAT's premier CAT Technician training program. This intensive one-year academy is designed to equip students with the skills needed for a lucrative career as a CAT Technician.

In response to the high demand for qualified CAT Technicians, Warren CAT established this school to find individuals with dedication and drive to learn how to diagnose issues and perform maintenance and repairs on equipment. Attendees of Warren U gain hands-on experience working with cutting-edge machinery, enhancing their practical skills and knowledge.

Caterpillar is the global leader in construction equipment, mining equipment, and off-highway diesel and natural gas engines. Warren U's curriculum is designed to give students the expertise to excel in the industry. Here, students learn from experienced CAT Trainers who are passionate about cultivating the next generation of CAT Technicians.
